

What will we be learning next week?

During the first weeks of term, we will be taking the time to recap our learning from last year as well as have lots of opportunities to re-connect with our friends and teachers as we explore the theme of **space**.

Reading

This week we will be joining our new phonic groups to practice our speed sounds that help us with our reading. We will also work hard to make sure we are using them in our writing in different lessons too!

Ask me which book I am reading this week!

PSHE - Jigsaw

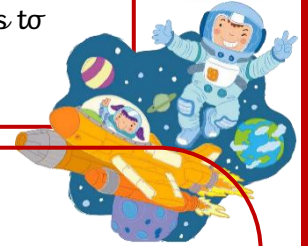

As we return to school, we will be having regular check-ins with all children to make sure they are happy as they settle back into school. In our Jigsaw work, we will also be exploring how we can keep ourselves and other people safe as we return to school.

Theme -

Last week we looked at space. We learnt and observed our solar system and created space posters and instructions to build a homemade rocket.

This week's theme is transport. We are building boats as a class, using different materials to see which material floated the longest. We made predictions and wrote what happened in during our experiment.

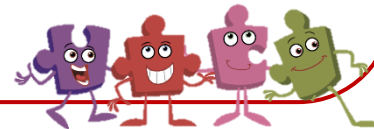

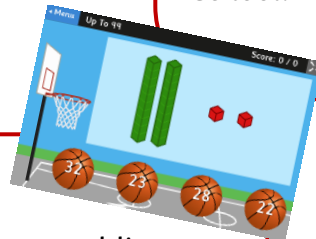

?

Maths

In Maths this week we will be looking at adding one-digit number to two-digit numbers. Adding two-digit numbers together, and two digit number in place value of ten.

We will be adding using a various of methods including base ten, column method and the bar model.

RE

Our RE unit is all about Homes.

We will be looking at the joys and sorrows of family life and homes as well as exploring what it means to be part of God's family.
